

Magnolia grandiflora - Alta

Bay Road Nursery Screening Collection

Features:

An outstanding, elegant, upright form of *Magnolia grandiflora*, newly introduced to Australia by Fleming's Nurseries that is ideal for group plantings, screens, hedges in gardens and courtyards, as well as in streets and parks. A moderate to fast growing plant with dense foliage and branch habits. The narrow foliage, to 15 cm, is a rich deep green with a rusty-brown backing. Large creamy white flowers are produced during the summer months even on young trees.

Flowers are formed at the branch tips and have a sweet lemon fragrance. Will adapt to a variety of sites and shows good heat tolerance once established. Grows best in full sun with moist, acid, well drained soil. Will tolerate partial shade.

Species	Magnoliaceae
Aspect	Full sun – part shade
Spacing	From 1 to 1.5m for total screen
Height	9m
Width	4m
